

## C Branch Track & Intersection Upgrades

### 28-day full weekday and weekend closure Cleveland Circle to Kenmore

8:45 PM Sunday, July 5 to Saturday, August 1, 2020

As part of Building a Better T 2020, the Green Line Transformation (GLT) is accelerating track work and intersection upgrades across the Green Line. We'll replace 10.8 miles of track (24% of the Green Line) and upgrade 14 intersections (26% of Green Line) in 2020.

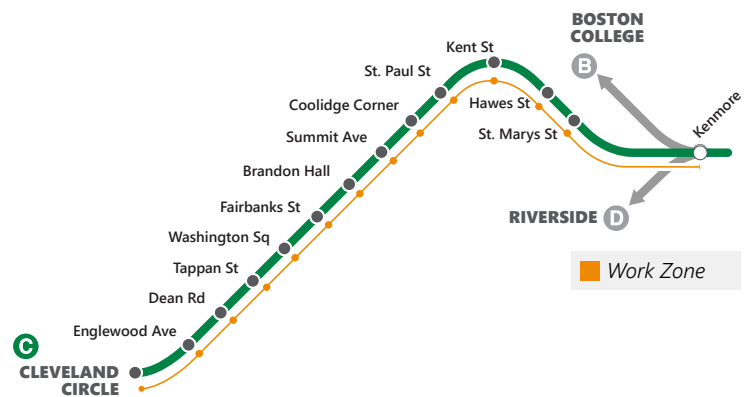

### Project Overview

Utilizing a 28-day full weekday and weekend closure, we will accomplish the equivalent of 1 full year of weekend and night work on the C Branch.

- Rehabilitate **more than two miles** of track on the C Branch between **Cleveland Circle** to **Kenmore**
- Construct full-depth rubber panel roadway crossings at:
  - Charles Street
  - Pleasant Street
  - Harvard Street
  - Centre Street
  - Dean Road/Corey Road
  - Strathmore Road
  - Ayr Road
- Construct accessible rubber panel pedestrian-only crossings at:
  - Cleveland Circle Station
  - 2 locations at Tappan Street Station
  - St Marys Station

Rubber panel roadway crossing at Carlton Street  
(Completed January 2019)

### Project Benefits

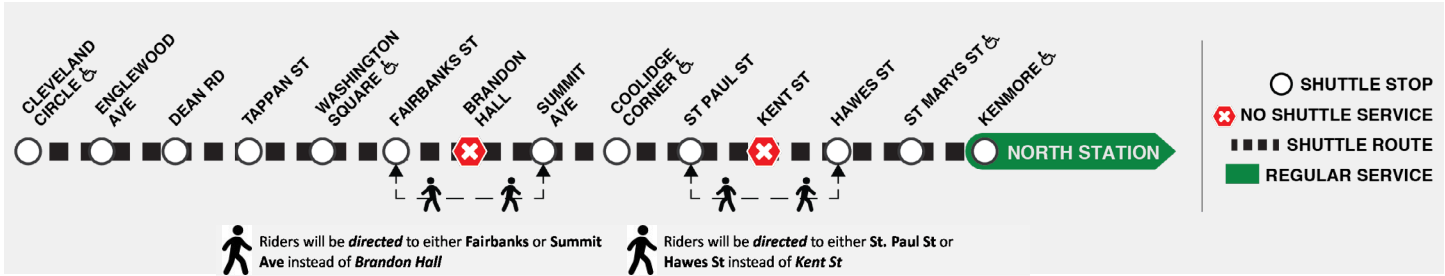

- ✓ Mitigate risk of unplanned service interruptions by replacing track that is beyond its design life
- ✓ Improve travel times by 30 seconds in both directions by removing speed restrictions
- ✓ Improve pedestrian access and safety in compliance with Americans with Disabilities Act (ADA)
- ✓ Provide a smoother experience for passengers, bicyclists, and drivers over intersection crossings

# ALTERNATE SHUTTLE SERVICE

Between Cleveland Circle and Kenmore

## Alternate Service Shuttle Stops

## Free Shuttle Service

8:45 PM July 5 - August 1, 2020

Free shuttle buses will operate along Beacon Street on the same schedule as train service. Shuttles may be provided with coach buses that look different from MBTA buses.

## Shuttle Schedule

- Mondays – Fridays [4:57AM/12:07AM]
- Saturdays [4:57AM/12:10AM]
- Sundays [5:30AM/12:07AM]
- Schedules are subject to change, dependent on weather, city-wide events, and construction progress

## Shuttle Accessibility

- Shuttle buses will be accessible and free
- Weekday service will be provided by a mix of MBTA-style buses and traditional coach buses from private carriers. MBTA buses will provide service during the weekends
- Drivers will be trained to operate lifts and adhere to all MBTA operating policies and procedures
- All lifts will have straps for safety during operation

## Explore Other Travel Options

Construction brings inconvenience, but bus service and access for automobiles, emergency vehicles, pedestrians and bicycles will be maintained during the closures. The MBTA asks for your help to reduce traffic volume if possible:

- Seek alternate routes
- Alter work schedules/commuting times
- Shift to alternate modes like bicycles and walking
- Work from home
