# MBTA INTEGRAL ART PROGRAM/POLICY

MBTA identifies opportunities for integral art that leverages the value of built elements.

Include *only* enhancements to elements required for the construction of the facility.

Artists will use the materials of the system, such as porcelain enamel, ceramic tile, bronze, steel, glass and concrete.

Designs will meet the same quality, craftsmanship and maintenance standards as the underlying element. Safety, accessibility, durability and maintenance requirements are the same as required elements.

Impact on the public will be optimized, and the product must enhance a positive and welcoming environment to the public.
